The Framework

The Framework

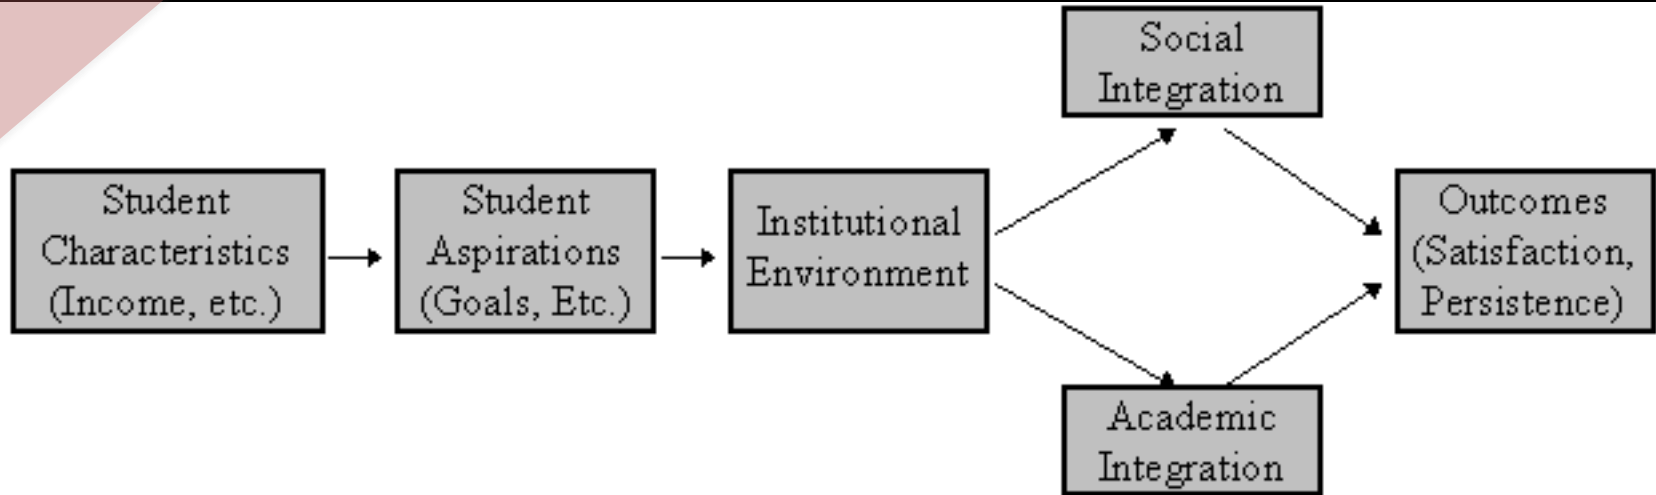

- How has theory shaped your work?
- Identify theories that relate to student affairs/academic support.
- Identify theories that relate to online learning/service delivery.

The Framework

Where is your knowledge
Base in Theory?

The Framework

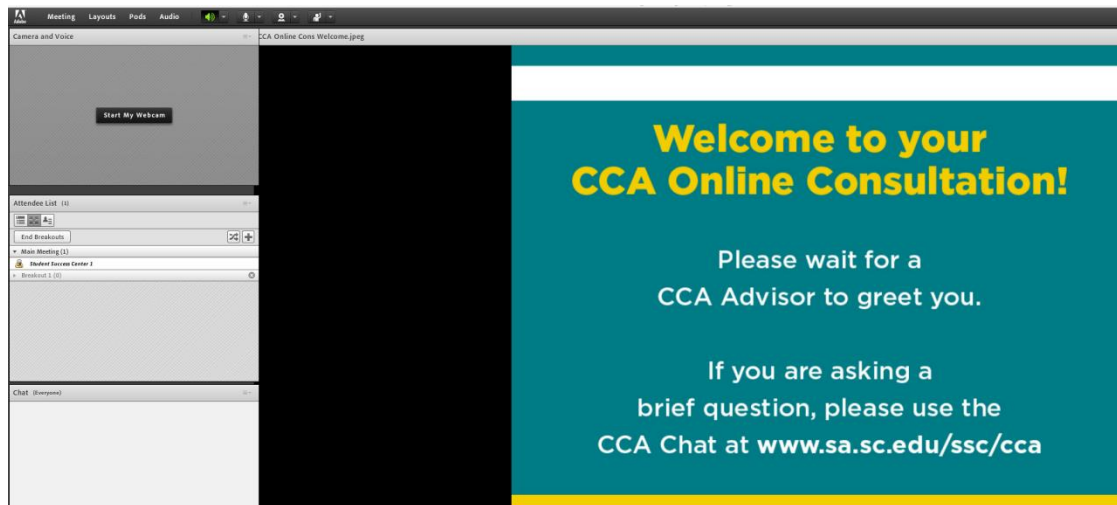

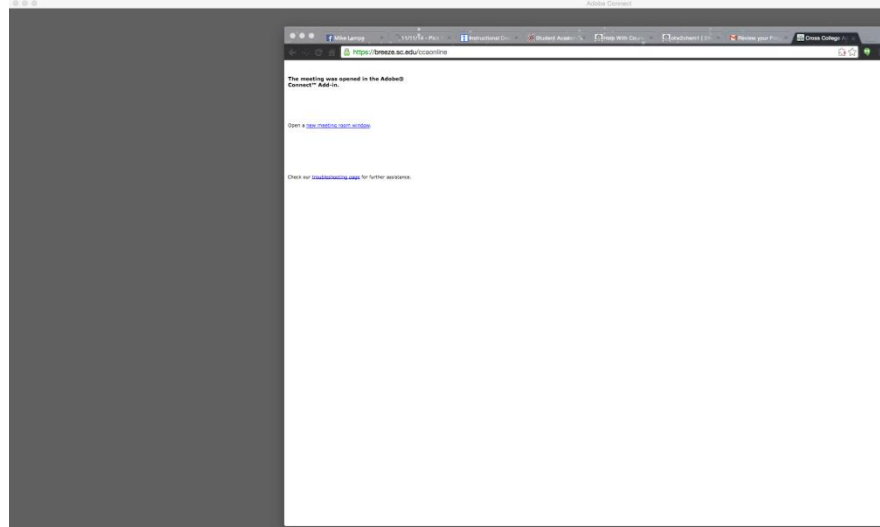

- **Tinto's Integration Theory (1975,1993)**
 - How could you justify online academic support through this theory?
- **Baxter-Magolda's Self-Authorship Theory (2001)**

The Framework

- Bronfenbrenner's Ecological Theory (1979)

Last

USC Email:

VIP ID:

IMPORTANT NOTE:

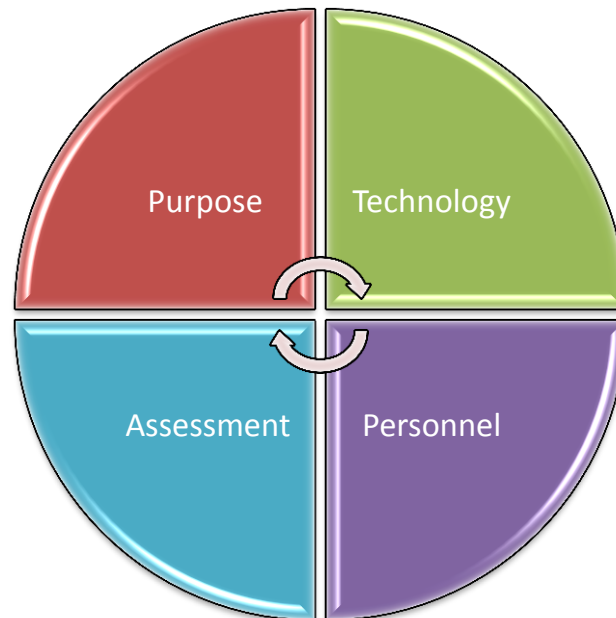

After you press SUBMIT, you will be taken to the Virtual Tutoring Room for MATH 111–115. Before you start your online tutoring session, the service will ask you to fill in the blank for your name.

The Framework

- Dick & Carey's ADDIE Model (1996)
 - Analyze, Design, Development, Implementation, Evaluation
- Conrad & Donaldson's Online Engagement Model (2004)
 - Make Students feel welcomed!
 - Lower the challenge to access services

Process Reliability

- **Technology Implementation Model (2014)**
 - How do you create a plan for implementation?

Process Reliability

- Technology Implementation Model (2014)
 - Let's Focus on Program and Personnel
- What Technology to Use!
 - What is the software, program, process?
 - *Tip* The most recognizable brand may not be the best brand for you
 - Staff thoughts (particular student staff thoughts)

Process Reliability

- What to look @ in technology:

- What will be your sweet spot for the technology?

Process Reliability

Assess/Confidence

- Be Confident that you have a tested product!
- Ask yourself:
 - How can you prove full launching success?
 - How can you prove continued success?
 - Any hypotheses on potential process changes?
 - What questions do you want to know about student participants of online service?

Create/Troubleshoot

- **By this point**
 - Should be having success!

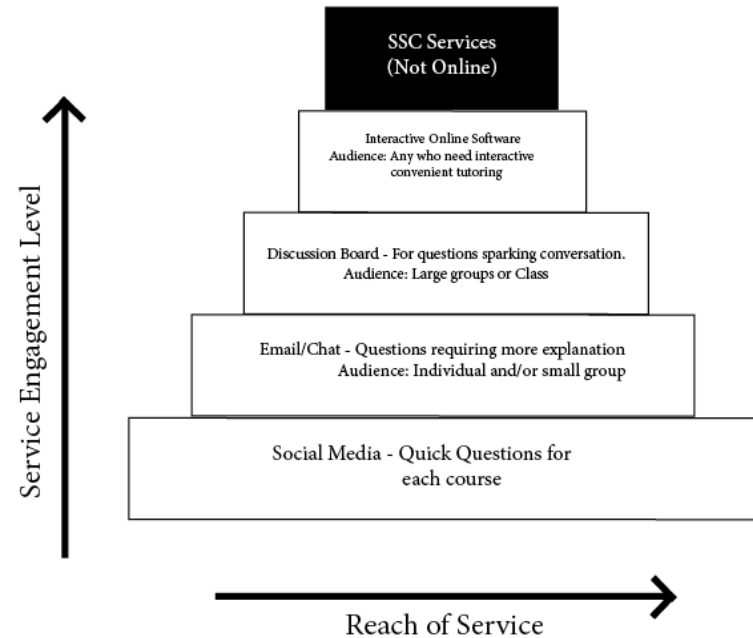

- **Create:**
 - New ideas based on experience?
 - IF YES: Start Needs Model over again!

Create/Troubleshoot

- **Note on Troubleshooting**
 - Potential foreseen student trouble with process
 - Potential unforeseen student trouble with process
- **Never Assume Your Process is Perfect!**
 - Technology Volatility
 - Student Needs Change
 - Always assess initial intention of service

Online Learning Considerations

Service Engagement	Delivery Approach	Intent of Approach	Audience	Example Programs
Level 1	Social Media	Quick questions for each content area or course.	Large Group	Twitter and Facebook
Level 2	Email/Chat	Questions needing further explanation or interaction.	Individual or Large Group	Outlook, Google Hangout, or website chat
Level 3	Discussion Board	For questions sparking interaction among a group	Individual or Small Group	Blackboard, D2L, or Moodle
Level 4	Interactive Software	Intense Learning Activity	Anyone who needs interactive real time engagement	Adobe Connect
Level 5	(Not Online) SSC Services	Dependent on Specific Functional Area	Dependent on Specific Functional Area	Dependent on Specific Functional Area
